SUBJECT : Breakfast Meeting with Secretary Haig, 29 June 1982

1. Per our discussion this morning, I have pulled together some material for your meeting tomorrow morning with Secretary Haig.

2. Lebanon. [redacted] Bob Ames are putting the final touches ^{- Done!} on a think-piece for you regarding the Palestinians, Jordan, etc. Included also for your discussion with Secretary Haig are some recent cables reporting on a PLO/Lebanese agreement for Palestine withdrawal. Included also are a letter from President Reagan to King Fahd and copies of memos for the record [redacted] You will have, 25X1 of course, the most recent cables and reports with your morning material. 25X1

4. Latin America. In the aftermath of the Falklands crisis, you indicated that you want to discuss the current situation in Central and Latin America. Dewey informed me that he briefed you thoroughly on Friday [redacted] 25X1

[redacted] He 25X1 said nothing has changed since Friday. Included as additional backup is the monthly warning assessment of last week and the DDI assessment on "Implications of the Falklands Dispute for U.S. Relations with Latin America." Again, the morning pubs will have any late-breaking information on the new government in Argentina.

5. Economic Issues. You mentioned that you wish to discuss economic issues with Secretary Haig also. I will stick in the book whatever material you have dictated today on that subject.

6. Haig/Gromyko talks. Included is a memo for the record of Secretary Haig's June 18 conversations with Gromyko. You may to probe a little bit to see if there are any other tidbits that came out of that discussion.

7. I learned from Haig's staff that they are not putting together a book for Haig, assuming that you and he will talk about items of mutual interest, given his resignation. I also learned that he may be going off on leave as of 1 July, leaving the State Department in the hands of Walt Stoessel.
